DETAILED ACTION

Ex parte Quayle

This application is in condition for allowance except for the following formal matters:

Abstract

The abstract of the disclosure is objected to because throughout the Abstract, many of the “e”s in words are missing. For example, on line 1 of the Abstract: “syst m which substantially reduces th...” should presumably read: “system which substantially reduces the...”

Correction is required. See MPEP § 608.01(b).

Specification

A substitute specification for the claims is required pursuant to 37 CFR 1.125(a) because ***throughout the specification***, many of the “e”s in words are missing. For example, in line 1 of the specification: “This invention r lates to automotive tire pressur sensors” should presumably read: “This invention relates to automotive tire pressure sensors”.

A substitute specification must not contain new matter. The substitute specification must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter

must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) and a statement that the substitute specification contains no new matter must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

Claim Objections

Claims 1-15 are objected to because of the following informalities:

Throughout the claims, many of the “e”s in words are missing. For example, in the first line of claim 5: “Th inv ntion of claim 1 wherein said bias l m nt...” should presumably read: “The invention of claim 1 wherein said bias element...”

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
